

# *The Reading Center*

At *The Reading Center*, students are taught by an experienced tutor to spell their way into writing and reading with a unique multi-sensory phonics program. After learning the seventy English phonograms and twenty-eight spelling rules, students are equipped with the tools to unlock the English language.

*The Reading Center* uses the *Spell to Write and Read* program which originates from the Spalding Method. The Spalding Method proves that learning disabled and “regular students” can excel in reading.

“The spelling program with results...I know this program works, and the results are impressive to say the least!”

The Old Schoolhouse Magazine

*Colossians 1:9 “we...desire that ye might be filled with the knowledge of His will in all wisdom and spiritual understanding.”*

# *The Reading Center's* Philosophy:

## ■ Internalize (Spell)

*The Reading Center* starts with spelling. Students internalize the words they build from scratch and later easily recognize the words in print. Students sound out words and write them from guided dictation with a trained tutor.

## ■ Recognize (Read)

*The Reading Center's* student can mentally think by sound to write a word correctly (spell), he can more naturally see a word and blend the sounds together (read). A student reads the word after writing it accurately and analyzes it using a limited number of reliable rules.

## ■ Compose (Write)

*The Reading Center's* student uses the spelling words to construct original sentences and practices reading the spelling words and sentences that he has composed.

## ■ Comprehend (Understand)

*The Reading Center's* spelling instruction is reinforced by simultaneously teaching other important topics. This integrated language arts approach includes phonics, penmanship, literature, logic, grammar, composition, vocabulary building, figurative language, dictionary skills, Greek and Latin roots, and comprehension. Such a well rounded presentation helps prevent or remediate spelling and reading failure.
