UCITS partnership for Platinum and NextGen Alpha

First Published 05/2014

Platinum Capital Management Ltd., the global investment firm, is expanding its UCITS offerings with a roll-out of three funds in collaboration with NextGen Alpha AG, operator of the Luxembourg based multi-manager UCITS platform business.

Following Platinum's Global Dividend UCITS Fund on the NextGen Alpha UCITS platform, Platinum is moving forward with the strategic transfer of the Platinum Essential Resources Fund, a Luxembourg based SIF, to a UCITS and initiating a UCITS version of Platinum's flagship Platinum All Star Fund, a Cayman-based fund of funds launched in 2005.

Platinum Global Dividend UCITS Fund aims to combine high-quality dividend income with capital appreciation to outperform traditional equity investments and deliver consistent total returns with less risk and generous cash dividends. Platinum Essential Resources Fund seeks to achieve long term capital growth through a diversified portfolio of investments in companies around the globe that own or are active in the exploration, development, production, processing, transportation and distribution of natural resources. Platinum All Star Fund is a fund of funds comprised of a diversified portfolio of alternative investments handpicked from the top 1% of fund managers worldwide.

Peter Sprecher, Founder and Chairman of Platinum Capital Management, commented: "We are delighted to partner with NextGen Alpha to expand Platinum's UCITS offering and make these funds more accessible to European investors."

Fred Sage, Chairman of NextGen Alpha AG, added: "The collaboration with Platinum is consistent with our plans to build a multi-manager UCITS business in partnership with high quality entrepreneurial managers to include new funds launches and migration of existing UCITS and non-UCITS funds".
