**Full Sensory Perception (FSP) is a program for accelerating your spiritual growth and fulfillment. It is open to everyone who seeks to live in alignment with their Higher Self and to be in the consciousness of Oneness. FSP is the beginning program for everyone participating in the Dolphin Star Temple Mystery School.**

**In FSP classes you learn to open your full sensory perceptions of clairvoyance, clairaudience, intuition, and channeling healing energy. It is a path toward wholeness, Oneness, and becoming consciously responsible for aligning with the Divine and maintaining a connection with God/Goddess/All-That-Is. In FSP you learn self-help tools for releasing ego-identity and clearing what holds you back on your spiritual path. Class sessions include group meditations, spiritual teachings, and supervised healing work conducted in pairs.**

**FSP is for those seeking deep personal healing and clearing. It can be an experience that redirects your life toward your spiritual fulfillment and living in impecability. It is also for those interested in learning the healing skills needed in order to be a healing practitioner or teacher.**

Robert Perala

Robert presents a remarkable look into our relationship with Extraterrestrials and the Divine Creation. You are surrounded by a host of support systems: Spiritual Guides, Loved Ones Who Have Passed Over, Extraterrestrial Intelligence, and the Spiritual Healing Masters. Robert showcases a variety of important subjects that apply directly to you. Learn about the origin of the soul, why you are here sent. Ancient writings and lost texts point out that we are watched over by the ET faction known as the Pleiadeans and the Angelics. The presentation is visually stunning with a large individual personal empowerment, coping and preparing for the massive shifts in consciousness that surround us and our Earth.

Robert Perala has just released his new revised edition of The Divine Architect: The Art of Living and Beyond. He is noted for his famous abduction by extraterrestrial astronauts leaving him with a sunbomb and a long recovery period which led to his lifelong spiritual quest for answers in the cosmos. He has been seen and heard on: Snowtime, Coast to Coast AM, and is host of his own The Perala Report.

Barbara Lamb

ET-Human Hybrids Living on Earth

Having met and extensively interviewed eight individuals and hybrids who live among us on earth, Barbara shares how they were hybridized by various species of ETs, how they discovered they are hybrid and found their special skills and mission on earth and how they are carrying out their missions. Each of them is trying to upgrade the consciousness of humanity and come to a better understanding of ETs. Illustrations will show six of these hybrids and pictures of the ET species whose genetics they carry. Details are in the book Meet The Hybrids, by Miguel Mendonca and Barbara Lamb.

Barbara Lamb, MS, MFT, CHT is a psychotherapist, hypnotherapist and regression therapist who specializes in Extraterrestrial Encounters and Hybrid beings. After years of conducting 2600 regressions and learning about ET-Human hybrids living on board UFOs, she began to know Hybrids who are living on earth among us.

Jason Martell

Lost ancient civilizations built structures all over the earth that align to specific cosmological alignments in the heavens and show evidence of advanced technology used to build them. Ancient man used the movements of the heavens like a grand celestial clock and built monuments to mark where they were in this larger cycle of time that we today call the precession of the equinox.

See the artifacts and evidence that ancient man possessed advanced understanding of mathematics, astronomy and science much further back than modern science academicians currently recognize.

Jason Martell is a leading researcher specializing in ancient civilization technologies. His research has been featured worldwide on numerous television and radio networks such as The Discovery Channel, Syfy Channel, and the BBC. He is a regular guest on the History Channel show Ancient Aliens Lecturing throughout the world, he has dedicated his studies to Ancient Artifacts, Planet X, Ancient Astronauts and the structures on Mars. He is planning stages of several groundbreaking international research expeditions.

What’s The Big Idea? Uncover Your Purpose, Your Passion and Get into Action

How many times have you thought about that one thing you would love to do, but it feels way too big? So you forget about it – fuck it away from your unconscious, where from time to time, it tugs at you. How about we dig it out, dust it off and make it happen? I believe we came here with a Divine purpose indelibly etched on our hearts and along with that, the talents and abilities to make it happen. Gratefully, my path has led me to uncover, own and honor my Divine purpose and I want to assist you in doing the same. Join me in taking this adventure to the core of your being.

Roz Esposito is a Religious Science Minister, an NLP Practitioner, playwright, author, award-winning songwriter, stand-up comic and three-time marathon race-walker. Through her workshops, personal development and accomplishments, Roz exemplifies the principle that we can be or do anything we put our hearts and minds to. She is currently the Assistant Minister/Ministerial Director of the Consciousness Center OC and in January she is doing a reading of her original musical in New York City.

Chiqeeta Jameson

Are Your Breasts The Best They Can Be?

Raising Dense Breast Tissue awareness for early breast cancer detection. Until there’s a CURE find it SMALL. It’s the new BIG! If You’re Dense, Then You Need To Be Smart! Why You Need To Know Your Breast Density. The standard of breast health care must change! Over 50000 breast cancers are missed each year by screening mammography. 35-40% will have spread beyond the breast. Women hold the power to change this “one size fits all cookie cutter” approach to the standard of breast care.

Chiqeeta Jameson has over a 28-year career as a top-producing sales professional, sales trainer and mentor of less-experienced salespeople. She is also a women’s health advocate for breast density education and was advancing healthcare to a Tedx Talk, about this subject, by the Dean of Education at Loyola Marymount University, Los Angeles.

Samanuel Kiwaz

Sacred Geometry, Ancient Wisdom for Modern Living

Spirit uses a finely tuned mathematical system of patterns of energetic vibration to create matter into form. In these modern times, we need to be especially vigilant of digital and high tech distractions; and prioritize the focus of our attention to the normal unfolding of creation. In this workshop, we will present ways of looking at patterns and frequencies as they come to us from nature. This will assist us in improving our health, our home and work environment. This way of being in is not only necessary, but essential to our happiness and survival.

Samanuel Kiwaz is a teacher, entrepreneur and community synergist who has taught Sacred Geometry Workshops for nearly 20 years. He has created a line of beautiful Sacred Geometry Mandala Pendants. Samuel also has created an extensive email list called the SacredFriends Community and enjoys sharing information on a daily basis about uplifting teachers and events that help people to arrive at their next level of spiritual development.

Saunas are a MUST

Phi will speak on Far-Infrared Energy - the life-giving rays from the sun - which is responsible for photosynthesis in plants, and mobilizing turtle eggs to hatch. In a Quality Sauna, one can experience these concentrated healing rays (which resonate with every cell of our body) causing cleansing, purification, detoxification. We feel invigorated and relaxed, inflammation, swelling and pain are reduced. Just 5 minutes in the Relax Sauna can greatly eliminate stress, and renew us.

Over all the years of my teaching, I have discovered that two main things hold people back from living a Bountiful Life: fears around aging and death. Come with me into the world of shamansm and discover how to overcome these fears. Learn to tap into your inner nature and embrace the blessings of any season of life. Learn what The Sisterhood of the Shields teaches us about a deep, internal beauty that comes with age, and a wisdom that only comes with experience. Journey to the domain of the Masters - meditation. Join me in Shapeshifting as we discover the beauty of aging, and the certainty that life truly is a celebration of passages.

Lynn Andrews is the best-selling author of the Medicine Woman series of books chronicling over three decades of work with indigenous shaman women from four different continents. Lynn is a highly skilled shaman woman in her own right who is recognized worldwide as a leader in the fields of spiritual healing and personal empowerment.

This is the key question in the TV series ‘Ancient Aliens’ and the question Ancient Astronaut theorists have posed since Erich von Daniken’s Chariots of the Gods was first published in 1968. Are we continuously examining scientific, archaeological, astronomical, and historical evidence to find the answer. Modern inventions such as ground penetrating radar, satellite images and thermal scanning are revealing even more evidence of possible extra-terrestrial visitors and advanced technology in our ancient past. Will these findings change our worldview of aniquity and rewrite our history books? Bring your questions, we will ponder the answers together!

Moderated by Jimmy Church, Host of ‘Fade to Black’ on the Game Changer Network, one of the highest rated paranormal radio shows on the internet. He also appears on Hanger One: The UFO Files.

Jason Martell is a leading researcher in ancient civilization technologies. Lecturing throughout the world, he has dedicated his studies to Ancient Artifacts, Planet X, Ancient Astronauts and the structures on Mars.

Serena Wright Taylor is a UFO researcher, producer, astrologer and adherent of the ancient wisdom of the Vedas which chronicles an advanced civilization on earth with ship, wings and advanced technology.

David Hatcher Childress is known as the real-life Indiana Jones to the many fans of his books. He is the author or coauthor of over 20 books. As an adventerous explorer, he has traveled the world several times over.

Linda Moulton Howe is an Emmy Award winning TV producer, Reporter and Editor of Earthfiles.com. Linda has explored and investigated many ancient land-marks, including sites in Turkey, Egypt and UK.

Mike Bara is a New York Times bestselling author and TV personality. Mike has publicly lectured on the subjects of space science, NASA physics, UFOs and the link between science and spirit.

David Wilcock is a researcher of ancient civilizations, consciousness science, new physics and new paradigms of matter and energy. He is a bestselling author and stars in three shows on the Gaia Network.

William Henry is an investiga-tive mythologist, author and TV personality. For over twenty years he has been a trusted voice on the subject of human ascension and our interactions with otherworldly beings.

In these ever-changing times, it is vitally important to understand the power of our own potential. In this workshop, transformational media catalysts, Lisa Garr and Jennifer McLean, combine their knowledge and healing abilities to help you release where you have been limiting yourself so you can launch into the resilient and brilliant person you truly are. You will experience a visualization that allows you to walk through fear-based beliefs into an experience of your authentic self. You will come out of this workshop being able to embrace the light and the darkness inside of you and as you change and accept all parts of you, everything around you will begin to respond and change too.

You will learn about the power of the Consciousness Revolution to transform objective reality and you will be guided through a shamanic journey that brings inner peace and empowers your personal connection with global transformation.

John is a founder and board member of Dream Change and The Pachamama Alliance, non-profit organizations devoted to establishing a world future generations will want to inherit, has lectured at Harvard, Oxford, and more than 50 other universities around the world, and is the author of books on indigenous cultures and transformation, including *Shapeshifting*, *The World Is As You Dream It*, *Psychonavigation*, *Spirit Of The Shuar*, and *The Stress-Free Habit*. **Computer Simulation Universe?**

Some abductees have reported that ETs describe our universe as a 3-D hologram projected from another dimension by a Super Intelligence. Quantum computer engineers and astrophysicists ask: Are We Living in a Computer Simulation Universe? The Hayden Planetarium in New York hosted a debate on the question “Is the Universe a Simulation?” James Gates, Ph.D., a theoretical physicist said: “If the simulation hypothesis is valid, then we open the door to eternal life and resurrection and things that formally have been discussed in the realm of religion.” Michael Talbot wrote in The Holographic Universe, “...there is evidence to suggest that our world and everything in it - from snowflakes to maple trees to falling stars and spinning electrons - are also only ghostly images, projections from a level of reality beyond our own.”

Richard Dolan

ETs & Inter-dimensional. Sorting out the theories of who “they” are.

When UFOs were new to public awareness, the Extra-terrestrial Hypothesis (ETH) was the dominant theory. The idea was simple: UFOs were “interplanetary” and belonged to beings with more advanced technology. Over time, competing theories emerged to explain the high strangeness accompanying UFO encounters, such as interdimensional entities, spiritual beings, strange natural phenomena and much more. Richard argues that the ETH remains valid but needs to be understood in a way that incorporates this genuine high strangeness. Now in the 21st century, we understand our reality to be much more complex than our predecessors did. Richard will make a case that other beings are indeed here, and they may be from elsewhere, but the reality they represent is far beyond our normal way of thinking.

Richard Dolan is one of the world’s leading researchers and writers on the subject of UFOs. Richard’s latest work, UFOs for the 21st Century Mind, provides a fresh treatment of the entire subject. Richard holds two weekly radio shows, and is featured on several television series and documentaries.

*We are all Seeds*

We are all seeds, biologically and metaphorically.

Today, seed is being genetically manipulated, patented and owned by a Chemical Cartel, which has its roots in making chemicals during the 2nd world war. Dr.Vandana Shiva will share the impacts of Genetically Modified Organisms(GMO) in the last 20 years, as well as her creating Navdanya as a response to keep our seeds free of patents and genetic engineering, our food free from poisons and our farmers free of debt and suicides. Navdanya’s work shows that we can double the nutrition needed to feed 2 times the world population by protecting biodiversity and practicing an agriculture of care for the Earth. Dr Vandana Shiva will also share the recent experience of organizing the Monsanto tribunal and People’s assembly in the Hague.

Dr. Vandana Shiva is an author, activist and scientific advisor who is changing the way the world thinks about food security and environmental sustainability. Dr. Shiva’s contributions to gender issues are recognized nationally and internationally. Her book Staying Alive dramatically shifted popular perceptions of Third World women. Dr. Shiva combines sharp intellectual enquiry with courageous activism, and her work spans teaching at universities worldwide to working with peasants in rural India. Time Magazine identified Dr. Shiva as an environmental hero in 2003, and Asia Week has called her one of the five most powerful communicators in Asia. In November 2010, Forbes Magazine identified Dr. Shiva as one of the Seven Most Powerful Women on the Globe. In 1991 she founded Navdanya, a national movement to protect the diversity and integrity of living resources – especially native seed – and to promote organic farming and fair trade. Dr. Shiva has campaigned internationally on issues surrounding biotechnology and genetic engineering. When the US initiated a dispute against the EU to remove the bans and moratoriums on genetically modified crops and foods, Dr. Shiva launched a global citizens campaign on GMOs in the WTO.

Daniel Sheehan
The Cosmic Human: Exoplanets, ET Intelligence & the New Paradigm Worldview

Space telescopes are identifying an increasing number of exoplanets possessing favorable conditions to support life, leading to the inevitability that we will discover, one or more highly advanced extraterrestrial species. The seven presently operational viewpoints all postulate that humans are the be all and end all of all biological evolution in the universe, but the discovery that humanity is not alone will require the development of an entirely new and distinct worldview. Daniel Sheehan will discuss the activities of his New Paradigm Institute in Berkeley, where they are working to discern and articulate this new cosmic worldview. As we come to understand that the universe was not created for humans alone, we can evolve from a materially enmeshed state into an unconditioned state of consciousness.

For forty-six years Daniel Sheehan’s work as a public interest attorney placed him at the center of many of the most important legal cases of our time. He is the president of the Romero Institute, where he continues to work towards identifying and dismantling structural sources of injustice.

Spend the next 45 minutes with the expanded, loving beings who call Themselves Golden Arrow and experience the empowerment that They have for you. Do this for YOU!!!

Alexandra has been trance channeling Golden Arrow for over 20 years. She facilitates group gatherings, workshops and private sessions. She submits channelings to Sedona magazine and will be presenting Golden Arrow on internet radio and YouTube.

In the field of Ufology it is known that other dimensional and extraterrestrial beings are communicating with humans and in a vast variety of ways. The Amazing Sauna that generates Chi and feels Spiritually uplifting

As I was meditating just for the past couple of minutes, I really got very clear on some questions I have been pondering. I was able to just release from it, and not even think about it. And just Beautiful guidance just came forth for me. And this has happened both times that I have been in here. I see a consistency. I was raving about it. I would rave about it. I would tell everyone about it. Absolutely. Positively! I have experienced a lot of healing therapies. And this to me is very authentic and very strong. All I know is it feels good. It feels so good. I felt very energized and clear. Really clear. I noticed how much of the up. Just Feeling Up. Very balanced, actually.

It’s a clean refreshing feeling. It’s like this delicious warmth feeling. It just feels re-vitalizing. It feels like my body is more awake and clear. That’s what it feels like, ... I didn’t expect to feel as clean and/or energized by it. Thomas - Holistic Coach

Nassim Haramein
The Awakened Soul
The Art and Science of Ascension

Have you ever given thought to the significance and power of sacred art to your spiritual practice? Why, for example, do we hang images of Christ, Mary, Shiva, or a guru in our sacred spaces? The answer is that art, especially sacred art, has extraordinary, even cosmic, powers to elevate our consciousness, energize our soul, and to raise our spiritual frequency. Now, learn how the "visual alchemy" of sacred art opens our hearts, taps our emotions and acts as a bridge to our Divine Self. It also brings connection to a higher, purer consciousness and to our better, more perfect, selves. Join William for this eye-opening exploration of his latest research on the secrets of sacred art and how the visual alchemy of sacred art helps us connect to the significance and power of sacred art to our spiritual practice.

Understanding False Flags in Our Time
False flags are a real phenomenon, and they are an evil virus of our era. Richard Dolan covers false flag operations analyzed as a serious and widely used phenomenon. The planet being stolen by a transnational corporate financial-industrial complex through false flags including religions and nationalisms, the propaganda paradigm, including cultural values, educational system and news media, a war of corporate cultural control and imposition of a global police state. False Flags and black PSY OPS as described in the US Army’s Psychological Operations Manual: the nasty truth about regime change, color revolutions, and NGOs. Finally, how to identify the characteristics of a false flag.
