

FOR IMMEDIATE RELEASE

SYSPRO TO PARTICIPATE IN ERP VENDOR SHOOTOUT™

COSTA MESA, Calif. – August 25, 2009 -- SYSPRO, a provider of visionary [ERP](#) for the manufacturing pragmatist, has today announced that the company will be presenting at the Fifth Annual ERP Vendor Shootout, September 23 – 25 in Baltimore, MD. Sponsored by Technology Evaluation Centers (TEC) of Montreal, Canada, the goal of the one and one-half day event is to simplify the [ERP](#) software selection process. This will enable mid-sized manufacturers and distributors seeking a new or replacement [ERP](#) solution to have a quicker, more accurate and less costly method of developing a suitable vendor short list. Software demonstrations by leading Enterprise Resource Planning vendors will enable attendees to view side-by-side comparisons of similar industry functionalities, permitting “apples to apples” comparisons of each.

According to Joey Benadretti, president, SYSPRO USA, “We welcome the opportunity to discuss and show the exceptional SYSPRO core functionality as well as SYSPRO differential, vertically focused capabilities. This type of event gives companies the ability to see for themselves how much more SYSPRO has to offer and how much more exceptional the SYSPRO product is over those of the competition. SYSPRO continues to innovate and keep a focus on a single product offering to enable SMB (small, medium size) manufacturers and distributors to ‘lean’ and ‘green’ their operations in order to successfully compete in their respective industries.”

SYSPRO’s more thoughtful approach to adopting new technology also reflects the desires of its buyers who are driven by business needs and not by the latest headlines. This exemplifies SYSPRO’s ongoing strategy of helping to simplify the success of its customers. SYSPRO calls its buyer landscape

“PragmaVision,”™ consisting of pragmatic, visionary [ERP](#) executives that are driven by a desire for smart, but aggressive market growth.

About SYSPRO

Since its inception in 1978, SYSPRO has been delivering state-of-the-art business solutions to some of the world's leading companies. As a global leader in the production of world-class [ERP](#) software, the company now caters to the specialized needs of 14,000 licensed companies in more than 60 countries worldwide. SYSPRO is marketed globally through regional territory distribution centers and a global reseller network in the US, Canada, Africa, Asia Pacific, Australia and the UK.

SYSPRO is a fully integrated business software solution that provides complete control over the planning and management of all facets of business including accounting, manufacturing and distribution operations in a variety of industries.
