

Tatting Fern/ Mrs Frizell's Lady Fern

Athyrium Filix-Femina 'Frizelliae'

- ❁ Curly fronds of pea-green leaflets resembling tatting (the name for Irish handmade lace). Friselliae has especially curly fronds and provides useful interest when combined with other ferns. Plant in humus-rich moist soil in a shady part of your garden. .
- ❁ Cut old fronds off before the new ones emerge in the spring

Height: 14 Inches
