Insurance stakeholder bulletin

September 2015

Re: Live testing of new online insurance licensing system

We are pleased to inform you that we have launched a final test version of phase 1 of our new online insurance licensing system at <https://portal.fcnb.ca>. The full implementation of this system will, very shortly, enable insurance agents, brokers, adjusters, damage appraisers, and insurers to interact with FCNB online for all their new licence application needs.

At this time, we are asking industry stakeholders to conduct live testing of the system between October 5 and 15, 2015 and to provide us with feedback during that period. Once the testing has been completed, it is our intention to fully launch the system to take real applications, on 30 October.

In order to participate in the public test, please download the user guide at:
http://0101.nccdn.net/1_5/15c/30e/002/Portal-User-Guide-FINAL.pdf

In order to ensure that you receive further details, please take a moment now to subscribe to our online email update service by visiting www.fcnb.ca/subscribe.html

Sincerely,

Financial and Consumer Services Commission
Insurance Division
