  - > Molift Smart 150 has been awarded for Design Excellence by the Norwegian Design Council.
- Product Code: XM10200

WORLD'S  
LIGHTEST  
LIFTER

## molift Mover 180

- > Suitable both in home care and health facilities
  - > Total weight: 35kg
  - > Hoisting height: 370-1730 mm
  - > Maximum user weight: 180 kg
- Product Code: XM1820002

## molift Mover 300

- > Robust design. Ideal solution for hospitals and care facilities. Also for bariatric clients
  - > Lightest in its category: weighs only 40kg
  - > Quick release 4-point suspension which provides options of other suspensions in different dimensions.
  - > Hoisting height: 375-1775 mm
  - > Maximum user weight: 300 kg
- Product Code: XM15050

## molift Rail system

Molift Rail System is an extremely multi-functional ceiling or wall hoist system with endless configurations.

**Air 200, 350, 500** .....  
Fixed, small, compact with larger hoisting intervals.  
All single motor systems: SWL 200, 350, 500kg

**Nomad 255** .....  
Portable. Can be connected and disconnected by a single carer and transferred onto rails in separate rooms.  
Very low weight  
SWL 255kg

## molift Quattro

### A freestanding traverse gantry

Molift Quattro is a freestanding hoist unit that offers a four post Traverse System useful when the hoisting need is temporary or when attaching to the build itself is not desirable. The gantry is easy to install without the need to mount additional fixtures on wall or ceiling. The posts are compact and not space occupying.

3m x 3m Code: XM1600030  
4m x 4m Code: XM1600035  
or cut to size

Slings in combination with Molift suspension gives an easy, comfortable up right lift - reducing need to reposition client once hoisted.
