World's Top ERP Software Resellers Team Up for the 5th ERP Vendor Shootout™ in Baltimore, MD on September 23-25, 2009

An event for mid-sized companies with manufacturing, distribution, and project-oriented requirements to determine “short list” when evaluating Enterprise Resource Planning (ERP) Software

GREENSBORO, NC – July 1, 2009 – The ERP Vendor Shootout™, moderated by Technology Evaluation Centers (TEC) of Montreal, Canada, is a one-of-a-kind opportunity for companies to see the best in Enterprise Resource Planning Software Solutions all in one place, all at the same time!

For the 5th time now, the top ERP packages will be presented by resellers in a side-by-side comparison. Past ERP Vendor Shootouts™ have included product demonstrations from Oracle, Microsoft, Infor, Epicor, SAP, IFS and others.

The targeted audience for this event is mid-sized manufacturing, distribution and project-oriented companies who are considering an ERP software selection or upgrade. The goal of the event is to simplify the ERP software selection process. This event alleviates some of the painful inefficiencies of the selection process by coordinating onsite software presentations and delivering them in a one and a half day event. End-user attendees will participate in a series of scripted demos from resellers, gaining a side-by-side, comparative view of product functionality, user interfaces, and overall usability. Attendees can also visit unscripted breakout sessions that will cover additional topics and key functionality specific to each product.

Event sponsors include IBM, IT Toolbox, Manufacturing.Net, Manufacturing Business Technology.

For additional information, sponsorship opportunities or to register for the ERP Vendor Shootout™ visit www.erpshootout.com or call 877.907.2702.
