

Winner!

BREATHING EASIER

Congratulations!
Colorado's smoke-free
casino law is celebrating its
fifth anniversary!

Thanks to this law, breathing the hazardous chemicals in tobacco smoke is no longer a condition of working in or visiting a Colorado casino. The law has been a winner for the many Colorado casino employees and visitors. The benefits of smoke-free policies, the state's smoke-free law of 2006, and the work of local communities passing strong smoke-free laws all played a role in building momentum for the passage of the smoke-free casino law. Colorado smoke-free laws are just one part of a state effort that has led to 100,000 fewer smokers in the last 6 years, reducing death and disease for Coloradans and healthcare costs for individuals, families, businesses, and taxpayers.

We all win with more tobacco free people and smoke-free places and communities.

For more information about Colorado's smoke-free law go to www.smokefreecolorado.org and for free help to quit tobacco use, contact the Colorado Quitline at 1-800-QUIT-NOW (784-8669) or web site at www.coquitline.org
