

Harlequin Variegated Honeysuckle

Lonicera X Italica 'Sherlite'

- ☼ Sweetly scented long tubular rosy pink flowers top the cream, pink and dark green variegated leaves. Attracts hummingbirds and butterflies to your garden. Non aggressive easy to grow vine
- ☼ This vine climbs by twining its stems around narrow supports, like small branches, wires, narrow poles or wood stakes. It won't twine, say, around the trunk of a shade tree as its diameter is too large and it cannot attach itself to a flat surface without wires for it to curl around

Height: Will Climb 10 Feet

Zone:4
