The Team Challenge

This program is perfect when you want more of a workshop style team program. The Team Challenge can also be broken into two parts and therefore fits well as a conference workshop activity. When you want your people to feel real teamwork mixed with creativity, fun and laughter, this is the perfect program.

How Does It Work?

After experiencing great teamwork with The Team Builder your group is then split into teams and with the help of our team, each group is given 30 minutes to create a team rhythm. Each team then performs their rhythm creation for the rest of the group.

The finale is where we put all the team rhythms together into one harmonious sound, demonstrating the real power of high-performance teamwork.

Creativity, fun, laughter and teamwork are all present in the Team Challenge.

Perfect For ...

- Conference opening / workshop
- Uniting a group in teamwork
- Igniting creativity
- Building interpersonal relationships

The Benefits

- Team energy
- 100% participation
- Engagement from all
- Enhanced people connection
