

Morton & Perry
Healthcare Equipment Solutions

Molift RgoSling Range

**For maximum comfort, easier
repositioning and fitting for carers**

Compare the advantages

www.mortonperry.co.nz/slings.html

What is different?

4 Point Alloy Suspension

Ensures a more open spacious position. The client always has eye contact with the carer.

Sliding Loops

Better weight distribution. Doesn't require external pivot frame or angle adjustment.

Pocket on Leg Supports

Provides easier, discreet and more comfortable application of the leg support.

Colour Coded Leg Straps

For easier fitting and predetermining required positions for the patient.

Anti-Slip Material

For improved safety used on the inside of Amputee and Toilet Slings.

Belt

Improved support & safety for Amputee and Toilet slings.

Leg Support

Padded to improve comfort and pressure distribution.

Labelling

On the back with size, washing instructions and maintenance checklist.

Padding

Distributes pressure and weight for improved comfort.

Guide Pockets

On back and legs to assist fitting when in a sitting position.
