Shower Commode Chair

A high quality chair designed for those with special needs and improved safety for the carer. Manufactured in Denmark by HMN, a specialist rehab company since 1934.

Safer for the Patient
The chair has padded armrests and a padded seat lid. It is height adjustable, making it easier for tall persons to self transfer. Larger adjustable footplates help support feet better.

Easier for the Carer
The chair is height adjustable to prevent bending over unnecessarily. The commode bucket has a large handle so is easier to remove.

Easier to Clean
All metal surfaces are white to show cleaning has been effective. All castors are closed, so they will not trap skin or hair. Soft seat and all surfaces are seamless to prevent entrapment of bacteria. The commode bucket is autoclavable.

More Cost Effective
All components are fully serviceable and replaceable. The system is designed for longevity with an expected life of 10+ years.
### Cost Effectiveness

| Warranty                      | Frame 5 years.  
|------------------------------|-----------------  
| Expected Economic Life¹      | 10+ years       ¹ Economic life of a chair that is expected, in years, with normal wear and tear and regular cost-effective servicing

### Safer for Patient

| Seat Cover      | More comfortable, easier to clean.  
|-----------------|-----------------------------------  
| Larger Adjustable Footplates | Adjustable to meet patients specific needs  
| Soft Armrests   |                                   

### Easier for Carer

| Chair            | Height adjustable – 7 Positions  
|------------------|---------------------------------  
| Commode Bucket   | Large handle, easier to remove  
| Armrests         | Lifts up or removable           

### Improved Infection Control

| White Powder Coated Surface | Easier to inspect  
|------------------------------|--------------------  
| Sealed Wheels               | Doesn’t entrap hair or skin  
| Seamless Seat and Smooth Surfaces | Easier to clean  
| Commode Bucket              | Autoclavable
