Our Inspiration:

Joseph Albert Hekimian in life was a highly intelligent and technically gifted, artistic, gentle and kind individual. He left his life at age 27, having developed an in depth understanding of organic chemistry, microbiology and advanced mathematics. Joseph lost his life to the disease of drug addiction prior to leaving the kind of legacy that a man of his caliber would work to leave to the country that he loved. While no one can complete Joe's legacy, the Joseph Albert Hekimian Legacy Fund strives to help other young people, especially those facing challenges in life with addiction, to achieve their goals, build their legacies and achieve happiness and satisfaction in life.

The Joseph Albert Hekimian Legacy Leadership Program is an incentive program to reward individuals challenged with recovery for serving their communities. To these ends, the JAH Legacy Fund seeks to incentivize and reward those accepting this challenge while recovering from addiction with 1 oz of pure gold for the successful completion of formalized training and probationary service in any one of the following fields:
