

COMPARE TOP ERP
SOFTWARE SOLUTIONS
LIVE AT THE NATION'S
LEADING EVENT FOR
SOFTWARE BUYERS.

October 8–10, 2018
DFW Airport Marriott South
Fort Worth, Texas

Join us for the longest-running enterprise software evaluation, comparison, and selection event, the **VSO™ for ERP**. Once again, we've prepared the perfect lineup of top ERP product demos and insightful sessions that will help you reduce the costs, risks, and duration of your software selection project. Moderation experts from Technology Evaluation Centers (TEC), a global consulting and advisory firm specializing in software evaluation and selection, will be there to share best practices and lessons learned with attendees.

EVALUATE

multiple ERP software solutions side by side in a neutral environment.

INTERACT

with software vendors one on one to discuss your specific business needs.

LEARN

winning strategies and tactics on how to get the best ERP system for your business.

NETWORK

with peers in your industry, and share tips and experiences.

This was a first-class show. Anyone shopping for a potential new ERP system should do themselves a favor and attend this shootout. The presentations were extremely informative and professionally delivered. The show has us second-guessing our original strategy for ERP selection and implementation. I highly recommend this show.

—Materials Manager,
Transport Equipment Manufacturer

WHY ATTEND THE VSO™ FOR ERP

A software selection project of this magnitude typically takes organizations months of research and planning to narrow down the choices. The VSO™ for ERP enables you to cover a lot of groundwork in just three days!

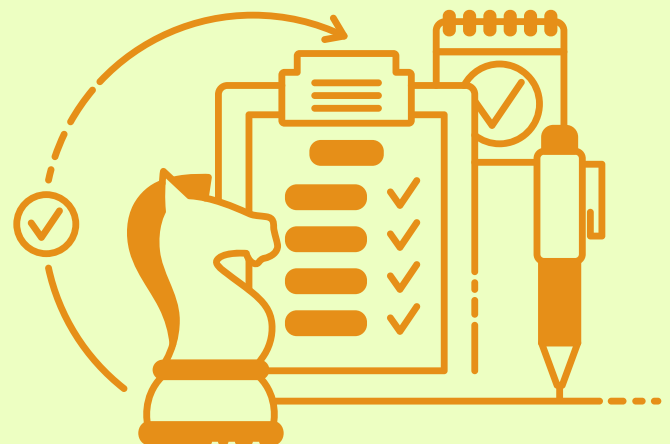

Live, Scripted Product Demos

At the event, you'll have the opportunity to watch multiple, live product demos from top ERP software vendors. Each demo provides you with ample time to evaluate the features and workflows of the product, assess its user interface and usability, and get answers to your specific questions about how the solution can meet your company's unique needs. Moreover, each demo follows a script put together by TEC's selection experts, so you can compare solutions on a level playing field.

Best Practices, Lessons Learned

General sessions are scheduled over the three-day event, including a presentation by TEC's software selection experts on how your organization can fast-track its way to selecting the ERP solution that best meets its business needs. You'll also learn about TEC Advisor—the decision support platform that allows your company to visualize and score every aspect of your software evaluation, resulting in a better and rational selection decision. Representatives from the organizing team will help debunk ERP implementation myths, and you'll have the opportunity to share your experiences and lessons learned with your peers in the industry during the event's networking sessions.

AGENDA
