## ***EARTH'S MIRROR*, by T.W. EMBRY**

There is a legend amongst the A'nai that the Ones will return to finish the destruction of their race unless their two warring factions can unite to form a defensive alliance. Amidst the stirring threat, the Human Thomas Scott, part of intergalactic playboy Snarth's special forces team, finds he must battle for the safety of Earth's Mirror, before interplanetary politics threaten his new family - and his home.

The stunning sequel to *Alien Manifesto* ...
