Platinum Capital Management Limited

Best Single Strategy Funds & FoHF Manager & Client Choice Award - 75% Retention Over 5 Years

Platinum Capital Management Limited

Platinum Capital Management Ltd. is a global investment firm that manages single strategy funds and funds of funds for investors worldwide. Founded in 1999, Platinum Capital Management Ltd. is based in London, with affiliate offices in Zurich, Isle of Man, and Los Angeles. Platinum's expertise in the research, development and implementation of unique alternative investment products derives from the aggregate investment experience of Platinum professionals. Platinum funds offer investors a range of investment strategies built on Platinum's commitment to delivering quality long-term investment success and a culture which embraces the continual enhancement of its investment selection, asset allocation and ongoing risk management capabilities.

Platinum distinguishes itself as a boutique asset manager offering investors a premium platform – pedigreed professionals, top tier counterparties, operational best practice, & seamless multi-jurisdictional regulatory oversight. Platinum's origins as a family office underscores Platinum's values and is the cornerstone of Platinum's long-term approach to investing. Each of Platinum's strategies are seeded with internal capital, and 75% of investor capital has been with Platinum for over 5 years. Platinum's flagship funds, Platinum All Star and Platinum Global Dividend, have performed strongly for investors over the short and long term and both significantly outperformed their respective benchmarks in 2013. Platinum fund strategies do not rely on the use of significant leverage to achieve compelling risk-adjusted returns; the majority of Platinum's funds employ little to no net leverage.

By their very nature, alternative investments are a breed apart.

Often governed by their own set of rules and practices, they rarely conform to industry standards – and so it is with many of those individuals and businesses who work in the sector.

The 2014 Alternative Investment Awards celebrate some of the leading lights making a big difference in one of the most exciting, unpredictable and fast moving sectors in the global business world. From the firms whose ability to think differently is changing the very way in which we invest to the businesses and individuals driving compliance and shaping the regulations that affect the wider investment industry, we are paying tribute to them all.

As part of these prestigious awards, some of the biggest and most influential names on the financial landscape stand shoulder to shoulder with smaller – albeit no less influential or ground breaking – organisations and shine a spotlight on some of the most forward-thinking work done anywhere in the world over the past 12 months.

So, let's find out who has been at very forefront of the Alternative Investment pack this year, and hear from some of the most respected voices in their respective industries.
