

Table Mountain Hardy Ice Plant

Delosperma 'John Profit'

☼ This selection forms a low carpet or mat of succulent, evergreen leaves, bearing loads of small starry fuchsia-pink flowers from late spring through summer. A great choice for hot, dry areas. Excellent as a groundcover, in the rock garden or wall, for edging, and as a lawn substitute. Attractive to butterflies

☼ Needs very well drained gravelly or sandy soil, drought tolerant—do not plant in boggy areas

Height: 4 Inches

Zone: 4
