Record Setting Attendance for the 7th ERP Vendor Shootout™, June 16-17, 2010 at the Marriott Hotel and Marina - San Diego, California

A record number of mid-sized companies with manufacturing, distribution, or project-oriented enterprise software requirements have registered for the 7th ERP Vendor Shootout to determine their "short list" when evaluating Enterprise Resource Planning (ERP) Software

SAN DIEGO, CA – June 14, 2010 – Along with the largest number of mid-market enterprise software vendors ever hosted by the ERP Vendor Shootout™, **Microsoft Dynamics (MSFT), SAP Business ByDesign (SAP), Epicor (EPIC), Infor ERP Syteline, Syspro, International Business Systems (IBS), Cincom Control™, and Sage ERP X3**, this years' event has already broken all previous attendance records.

Geared toward ERP selection teams and decision makers for companies with a manufacturing, distribution or project-oriented requirements, the ERP Vendor Shootout™ has been a huge success and time saver for businesses that are budgeting or are currently evaluating Enterprise Resource Planning software. Moderated by Technology Evaluation Centers (TEC) and sponsored by IBM, IT Toolbox, Manufacturing.Net, Manufacturing Business Technology this event is a one-of-a-kind opportunity for mid-market evaluation teams to quickly build their selection short-list by seeing the best in Enterprise Software Solutions in the world all in one place, all at the same time!

Hundreds of companies have simplified their ERP software selection by attending this event. The ERP Vendor Shootout™ alleviates the painful inefficiencies of the selection process by coordinating onsite software presentations and delivering them in a two day event. Attendees will see a series of scripted demos from vendors and resellers, gaining a side-by-side, comparative view of product functionality, user interfaces, and overall usability. In addition to the scripted demos, each product presenter will cover additional topics and key functionality specific to each product.

"Having a remote event allowed us to focus on the ERP selection process for several consecutive days rather than shoe-horning individual web demos between other work meetings and not really absorbing it all."

-IT Manager
Industrial Equipment Distributor

"The scripted demos did allow for an apples-to-apples comparison of the software. It kept them honest (Resellers) and allowed us to view more of the functionality in less than two hours than I have seen in other half-day demos. The Keynote presentation from TEC had a couple of nuggets that will ensure we get company buy-in on our project ... a key element we had lost sight of while deep in feature comparison."

-VP of Finance
Router Manufacturer

The 7th ERP Vendor Shootout™ will take place this week, Wednesday June 16th and Thursday June 17th, 2010 at the San Diego Marriott Hotel and Marina. Space is still available, for more information or to register go to www.erpshootout.com or email info@erpshootout.com.
