

Beef Weaner: Typical analysis (DM basis)

| | |
|---|-----------|
| Metabolisable Energy | 12.7MJ/kg |
| Crude Protein | 16.2% |
| Neutral Detergent Fibre | 27.3% |
| Crude Fat | 3.6% |
| Starch | 36.3% |
| Moisture | 13% |
| Calcium | 0.92% |
| Magnesium | 0.36% |
| Phosphorous | 0.64% |
| Sodium | 0.26% |
| Chloride | 0.34% |
| Potassium | 0.97% |
| Bovatec (20% Lasalocid Sodium - 45.8mg/kg)..... | 230mg/kg |

Beef Grower: Typical analysis (DM basis)

| | |
|---|-----------|
| Metabolisable Energy | 12.8MJ/kg |
| Crude Protein | 14.1% |
| Neutral Detergent Fibre | 26.5% |
| Crude Fat | 3.0% |
| Starch | 40.9% |
| Moisture | 12.6% |
| Calcium | 0.88% |
| Magnesium | 0.32% |
| Phosphorous | 0.60% |
| Sodium | 0.26% |
| Chloride | 0.34% |
| Potassium | 0.81% |
| Bovatec (20% Lasalocid Sodium - 45.8mg/kg)..... | 230mg/kg |

Beef Backgrounder: Typical analysis (DM basis)

| | |
|---|-----------|
| Metabolisable Energy | 11.8MJ/kg |
| Crude Protein | 19.7% |
| Neutral Detergent Fibre | 36.8% |
| Crude Fat | 4.8% |
| Starch | 19.9% |
| Moisture | 12.6% |
| Calcium | 0.98% |
| Magnesium | 0.47% |
| Phosphorous | 0.73% |
| Sodium | 0.26% |
| Chloride | 0.33% |
| Potassium | 1.13% |
| Bovatec (20% Lasalocid Sodium - 45.8mg/kg)..... | 230mg/kg |

Beef Finisher: Typical analysis (DM basis)

| | |
|---|-----------|
| Metabolisable Energy | 12.7MJ/kg |
| Crude Protein | 12.8% |
| Neutral Detergent Fibre | 26.8% |
| Crude Fat | 2.6% |
| Starch | 42.5% |
| Moisture | 12.7% |
| Calcium | 0.85% |
| Magnesium | 0.31% |
| Phosphorous | 0.58% |
| Sodium | 0.26% |
| Chloride | 0.36% |
| Potassium | 0.92% |
| Bovatec (20% Lasalocid Sodium - 45.8mg/kg)..... | 230mg/kg |

About MSM Stockfeeds

MSM Stockfeeds produces quality, trusted feeds using locally sourced, non-GM oilseeds and grains processed in-house by MSM Milling in Manildra. As well as our **Beef Pasture Range**, MSM Stockfeeds produces supplements and custom feeds as pellets or as a mash for a variety of livestock and feeding situations. MSM Stockfeeds is a Feedsafe Accredited Feed Manufacturer.

BEEF PASTURE RANGE

FORMULATED FOR PERFORMANCE

BEEF PASTURE RANGE

...FORMULATED FOR PERFORMANCE

MSM Stockfeeds' Beef Pasture Range includes:

BEEF WEANER

BEEF GROWER

BEEF BACKGROUNDER

BEEF FINISHER

Description

- 5mm pellets with pleasant, fermented odour
- Bulk density 600kg/m³
- **Beef Weaner:** high protein and energy to drive skeletal development
- **Beef Grower:** high energy, moderate protein for balance between skeletal and muscle growth
- **Beef Backgrounder:** high protein, moderate energy for maximum growth without laying down fat
- **Beef Finisher:** high energy and balanced protein to drive meat production
- Made with high quality, non-GM, expeller-pressed **MSM Canola Meal**
 - High bypass protein (RUP) levels mean more protein available for production
 - High reactive lysine levels ensure high protein availability
 - Great source of quality, plant-based protein
 - Other ingredients include: mill run, wheat, barley, condensed distillers syrup (CDS), molasses, vitamins and minerals, acid buffer to aid in maintaining a stable rumen pH
- Added minerals can be supplied as formulated by MSM nutritionist, or we can incorporate your advisor's recommended mineral pack
- **Bovatec™ (Lasalocid Sodium)** is an ionophore. Ionophores regulate ruminal microbial metabolism and act as an anti-coccidial in cattle. Bovatec can improve liveweight gains through improved feed conversion efficiency. It is highly palatable and has an excellent safety margin.

Advantages

- Hassle free feeding
- Simple single source of supplementary protein, starch, minerals, vitamins and additives in one simple pellet
- Consistent base ration formulation across our **MSM Beef Pasture Range** and our new **MSM Stockfeeds' Beef Grain Optimiser Pellet** allows for smooth transition between rations during the fattening period. No ration shock
- **MSM Stockfeeds' Beef Pasture Pellets** are also available in a whole cracked grain formulation
- Whole or cracked grain stimulates rumen contraction to boost feed conversion
- Whole or cracked grain results in slower release of starches ensuring a more stable rumen pH
- Less waste as there are no fines for cattle to sift through
- Withholding periods Sheep, Meat & Milk Cattle: NIL
 - Sheep: do not use in lactating ewes where milk or milk products may be used for human consumption
 - Do not feed to horses, dogs or other equines. This product may be fatal if fed to horses or other equids
 - Non-Bovatec variant available for HGP-free producers
 - Also available with Rumensin

Feeding recommendations

MSM Stockfeeds' Beef Pasture Range pellets are formulated for the following livestock classes:

Weaner – 150–200kg liveweight

Grower – 200–300kg liveweight

Backgrounder – can be fed to all beef cattle

Finisher – over 300kg liveweight

Seek advice from a nutritional advisor when high levels of supplementary feeding are being practised.

Feeding method

Pellets are suited to feeding via self-feeders, troughs or a grain-feeding system. Ensure cattle have unlimited access to fresh, clean drinking water.

Storage

Please store pellets covered and protected from weather, birds and rodents.
