

# 'Hameln'

## Dwarf Fountain Grass

*Pennisetum Alopecuroides 'Hameln'*

- ✿ An impressive mounding grass with fine textured foliage and distinctive buff flower spikes. Turns oranges and yellows in fall
- ✿ Provides a good vertical accent in borders and is also effective en masse. This clumping grass provides excellent food and shelter for birds
- ✿ Leave foliage in place over winter for interest. Cut back to the ground before new growth appears in spring
- ✿ Warm season grass
