Colour
White

Customer name/logo
Embossed and foil printed in one colour
or flat laser marked

Visual locking marks
Red foil printed on top and base

Packing
Blister trays of 10 seals, packed in boxes of 500 seals

Product Features and Benefits

The F-7115 seal is adapted to seal pp strapping of 12 to 19 mm width (0,8 mm maxi thickness)

The metal spike on the base guarantees easy penetration of the strap

Clear alignment marks on base and top section; ensure the seal is locked securely

Company name / logo provide clear identification

Unique numbering on top and base sections prevents substitution of component parts

Bar coding ensures fast and accurate data capture

Blister packed for efficient sequential use of seals
