

Everlasting Jade Hydrangea

Hydrangea Macrophylla 'Hokomarevo'

- ✿ A reblooming hydrangea, Everlasting Jade makes a lovely garden plant and cut flower with it's soft green and cream flowers. As the blooms open, they turn from apple to white with lime green markings and when the nights turn cooler, the blooms turn celery green with deep red edges and they stay that way until a hard frost!
- ✿ From the Everlasting series of Hydrangeas, which have incredibly strong stems so they do not flop and they rebloom!
