

# Snowdwarf Dwarf Mockorange

*Philadelphus x Virginalis 'Snowdwarf'*

- ❁ A new Canadian introduction noted for its dwarf growing habit and its abundant white fragrant blooms. Multi-stemmed and compact, this deciduous shrub with an upright, arching habit typically grows 2-3' tall and wide making this the smallest variety available. Fragrant double 1 1/2 inch white flowers appear in late spring in loose clusters
- ❁ Flowers profusely and has a heavenly scent
