

# Pink Cascade Tamarisk

*Tamarix Ramosissima* 'Pink Cascade'

- ❁ Graceful open deciduous thicket-forming shrub with beautiful sprays of pink plumes in midsummer, set off by soft feathery foliage
- ❁ Grows best in dry poor soil of low fertility in full sun. Very high salt tolerance
- ❁ Prune to within several inches of the ground in late winter each year in order to keep plant compact and to promote better form and growth

**Height: 8-10 Feet**

**Zone: 5**
