

Fragrant Viburnum

Viburnum x Carlecephalum

- ❁ A powerhouse of fragrance, blooming a week later than its parent *V. carlesii* (around the end of April), but possessing the same spicy clove scent. Pink buds open to large 4 to 5" wide rounded clusters of white flowers
- ❁ Deciduous dark green leaves turn orange-red in Fall, with clusters of red egg-shaped fruit.

Height: 6 Feet
