

'Little Goblin Guy' Winterberry

Ilex Verticillata 'NCIV3'

🌸 Male pollinator for the Little Goblin series. Little Goblin Guy is the ideal mate for an abundant crop of fruit on any of the Little Goblin winterberry hollies. This dwarf sibling male should be planted within 50' of the females for best fruit set. Smaller habit makes it much more landscape-friendly than other winterberry hollies. Dark green foliage turns yellow / purple in fall

🌸 Will also grow in moist soils and is deer resistant

Height: 2-3 Feet
