

Rose 'The Fairy'

Rosa Polyantha 'The Fairy'

❁ Produces a cloud of small, fully double pink flowers all summer with an especially heavy flush of bloom in fall. The bush is compact, seldom growing above 2 ft, which makes it effective as a ground cover, a low hedge, or a powerful presence in a mixed border. How such a little bush makes so many flowers is a mystery

❁ Charming rose for a English or Cottage garden

Height: 2 Feet

Zone: 4

Full Sun

Cut Flower/Foliage
