JAKE IS DIFFERENT ROSITA BIRD

Jake is an autistic young boy who starts school. It is a whole new experience and although he struggles to adapt he soon makes a good friend and gets the help he needs from a Teaching Assistant. There is also a friendly guide of signs and symptoms to look out for should anyone suspect a child they care for is on the autistic spectrum.

Beautifully illustrated by
Lynn Costelloe,
and with a foreword by
Jeanette Purkis

(artist, author and autism sufferer), this lovely book tells a gentle story that will help other children to understand those that suffer from autism or Asperger's Syndrome.
