## Experience the Digital Revolution in Document Scanning

The revolutionary S2200 Duplex Scanner has been ranked as a 5-Star Exceptional rated document scanner by BERTL and was awarded BERTL's BEST Innovation Award for Scanning Technology, and for good reason. The S2200 is the first and only document scanning solution that features the ability to scan to Google Docs, EverNote, YouSendIt, and several other cloud-based services with a single click. Built-in technology provides auto crop, auto straighten, and auto orient detection, as well as blank page detection & separation, bar code recognition, and auto color detection; such features are found on scanners costing more than twice its price.

## Speed, Accuracy, and Productivity Right Out of the Box

The S2200 is truly unmatched in speed and accuracy. It features the ability to scan color or black & white at 300 DPI in duplex mode at a rate of 120 images per minute. Add the ABBYY FineReader Technology and you can quickly transform virtually any document into editable, searchable, formatted text with 1-click scanning to email, print, USB, cloud-based services, network drives, FTP site, etc. The ABBYY FineReader Technology also retains text-under/over-image, features multilingual document recognition, and automatic language detection for English, French, Italian, German, & Spanish. Some more product specifications include:

- ◆ Scanning Technology: Charged Coupled Device (CCD)
- ◆ Scanning Mode: 48-Bit Color; 16-Bit Grayscale, Black & White
- ◆ Output Resolution: 75, 100, 150, 200, 300, 400, & 600 DPI

All of these industry-leading features are backed by a 2-year warranty and MDS' US-based Professional Support team. The S2200 provided by MDS is setting the industry standard in scanning solutions with ease-of-use, reliability, cost efficiency, and performance. Reduce costs, lower paper waste, increase productivity, and simplify your output environment today with the S2200.
